HISTORY

Dr. Sheilachu P. Gomez

Ms. Erlinda Munsayac

Dr. Robert Woodruff

EDUPHIL, founded in 2020 by Dr. Sheilachu P. Gomez, Ms. Erlinda Munsayac, and the late Dr. Robert Woodruff, is a non-profit organization focused on improving education in underserved schools in the Philippines. The organization's key initiative is its book donation program, which began modestly by sending 15 boxes of books to four provinces in 2020-2021 and expanded to 45 boxes across 8 provinces and 13 schools by 2023. EDUPHIL's mission was inspired by Dr. Woodruff's observation of the lack of libraries in Philippine schools, prompting him to leverage his experience with book donations in the U.S. for this cause. The organization has grown with support from the local Filipino community, businesses, and private donors, culminating in the achievement of tax-exempt status in 2023. Guided by a series of dedicated leaders, including its current president, Mr. Emiliano Pata, Jr., EDUPHIL continues to expand its reach and impact in improving education for Filipino children.

EDUPHIL President Message

I hope this message finds you all in good health and spirits...

I am honored to lead and excited for the opportunity to serve as President of Educational Outreach to the Philippines (EDUPHIL, INC.) for the duration of my term. As we look forward to the future of this non-profit organization, I am filled with hope and enthusiasm, for the impact we can continue to make on the educational landscape in the Philippines. Our mission to provide educational resources and support to schools remains at the forefront of our efforts, and we have exciting plans to expand our reach...

Establishing and Supporting Local Libraries. One of our key goals is to establish and support local libraries in underserved areas. By providing access to a wide range of books and other educational materials, we can foster a love of reading and learning among students. These libraries will serve as community hubs, offering resources and programs that encourage literacy and educational development.

Sponsoring Scholarships for Needy Schoolchildren. We recognize that financial barriers can prevent many talented and deserving students from pursuing their educational dreams. To address this, we aim to sponsor scholarships for needy schoolchildren, ensuring they can receive a quality education and achieve their full potential. These scholarships will cover tuition fees, school supplies, and other essential expenses.

Supporting School Projects. In addition to providing books, educational materials, and scholarships, we are committed to supporting various school projects that enhance the overall educational experience like:

Reading Programs - Initiatives to promote literacy and a love of reading among students.

Teacher Enhancement Programs - Professional development opportunities for teachers to improve their skills and teaching methods.

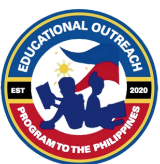

Skills Development Programs - Training programs focused on sustainability, good citizenship, and practical skills that prepare students for future success.

Looking ahead, with continued support from our growing membership, generous donations from businesses and individuals, and the dedication of our volunteers, I am confident that we can achieve these ambitious goals. I really believe that every one of us has charity in our heart and can give. And it is not how much we give but how much love we put into giving.

Once again, thank you for your unwavering support, partnership, and friendship. Together, we can make it happen...

Emiliano Pata Jr.

President 2024-2027

THE PEOPLE BEHIND EDUPHIL

The Voluntary Board of EDUPHIL is a passionate group of professionals committed to advancing education in the Philippines. Each board member brings diverse skills and perspectives, united by the goal of making a lasting impact on the nation's educational landscape. Their focus is on supporting underprivileged children and empowering educators, providing resources, scholarships, and programs to foster long-term growth. Driven by the belief that education is key to societal progress, they work tirelessly to create opportunities and promote educational equity and excellence.

Greetings!

On behalf of UF Department of Orthopaedic Surgery and Sports Medicine, I would like to congratulate EDUPHIL, INC on this remarkable achievement! Your dedication and hard work have truly paid off, setting a new standard of excellence.

We are delighted to be a part of this wonderful event where dedicated group of individuals driven by profound passion for education and unwavering commitment to help children in underserved areas of the Philippines change their lives through education.

We also extend our heartfelt gratitude to all the volunteers who have generously contributed their time and effort to make this event a success. Your support is invaluable and deeply appreciated.

Together, let's make this event a memorable and inspiring occasion for everyone involved.

Best,

AJ

"Stopped in for a quiet Sunday lunch and enjoyed excellent food and service! I've tried their sushi before, which is also great, but today I focused on their Udon noodles with chicken. It was a good portion size and I'll be back to try the pork and shrimp versions too." — Ann Marie G.

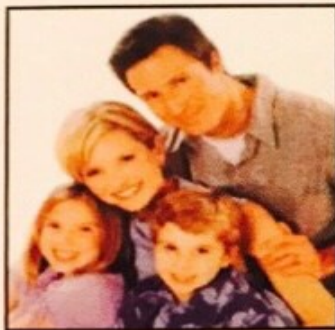

"I really enjoyed our food there today. We ended up getting the lunch menu, red curry with tofu and with chicken. Our waiter was very kind and they did a good job, providing us with vegetarian needs and spice preferences. I will say that their red curry is probably one of the best I've had in Gainesville. My friend enjoyed the fried ice cream tempura as well!" — Shreya R.

We extend our heartiest Congratulations to EDUPHIL!

3 pupils top batch 2021

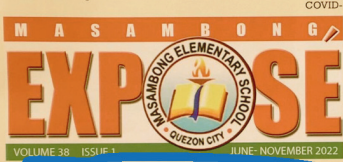

A graduation ceremony is a very special occasion. It is a chance to celebrate one's academic achievements with classmates, friends, family, and teachers.

In the School Year 2021-2022, students Jade Monica S. Alcala, Dianne G. Ramos, and Benjamin Nike Usher D. Canillo led the Grade VI graduates in the virtual graduation ceremony held last July 28, 2022, with the theme 'Gradwagt ng K to 12: Masigasig sa mga Pangarap at Mataas sa mga Pagsukbok. Alcala, Ramos, and Canillo each received an award with High Honors.

Similar to the previous year, the ceremony was live streamed to the official Facebook page of Masambong Elementary School.

Jade Monica S. Alcala, Dianne G. Ramos, Benjamin Nike Usher D. Canillo

MES receives donation from EduPhil, USA

Masambong Elementary School received a donation from EduPhil based in Florida, USA, last July 25, 2022.

EduPhil is a newly established educational outreach center in the Philippines. It is a voluntary, nonprofit corporation currently headed by its President Manny "Ching" Gomez, and Treasurer, Erlinda Musayac.

Fueled by their goal of providing as many educational establishments as they can with important literature, EduPhil has donated three boxes of countless textbooks, magazines, storybooks, reference materials, and much more to Masambong Elementary School.

The books were officially unboxed and made accessible to the student population of MES, as well as their faculty on August 11, 2022. The school's faculty were

DepEd: 92% of teaching, non-teaching fully vaccinated

The Department of Education (DepEd) said 92 percent of teaching and non-teaching personnel are fully vaccinated with the primary series against COVID-19.

DepEd spokesperson Michael Poa said that DepEd adheres to a "No Discrimination" policy for either vaccinated or unvaccinated personnel and students as face-to-face classes resume. Data also showed that only 19 percent of learners are fully vaccinated against the virus.

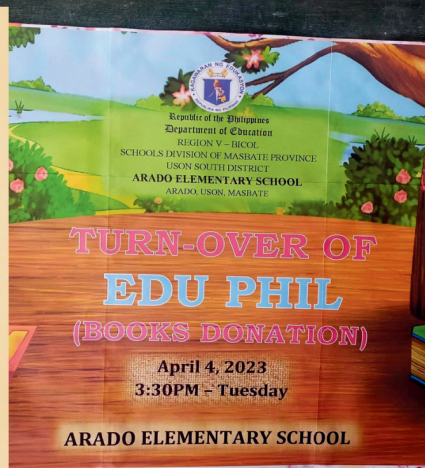

"Whether teachers or learners are vaccinated or not, they will be allowed inside schools. This is because our vaccination program is not mandatory," said Poa.

In the previous school year, only fully vaccinated teaching and non-teaching personnel were permitted to participate in the implementation of limited in-person classes.

Poa said the DepEd is in coordination with the Department of Health (DOH) to implement counseling and mobile vaccination programs in schools. He reiterated his call for teaching, non-teaching personnel, and students to continue to adhere to minimum public health standards.

Blended learning will be implemented before full face-to-face classes start by November 2 in private and public schools.

mission perfectly aligns with the ideals of our institution, helping greatly in making a reality of creating a new generation of educated, morally
